

S'66 Class Ephebians

What is an Ephebian? Well, this is a student who has outstanding grades at Reseda High. The society is a national organization and each high school adheres to the national standards of performance. The requirements are a 3.0 grade average based on the three years of high school. Not only does he or she rank high in scholarship, but also character, service and leadership.

The faculty and Senior A's selected these fourteen students by voting. There are many qualified students and voting is used because the Ephebian Society limits are one member for each forty students. As you can well understand, this is a proud position in a student's career.
